REMARKS

Entry of this Amendment is respectfully requested. Claims 29-30 and 39-40 remain canceled, claim 21 is amended as described below, and claims 1-28, 31-38, and 41-44 remain pending in the application.

This Amendment clarifies the amendment to claim 21 as agreed by the undersigned and the Examiner on August 2, 2006, namely that the phrase as amended should recite “instructions executable by a processor”. The Examiner’s Amendment in the Notice of Allowance identified the claimed “instructions” as located “in line 1 of line 21”: the claimed “instructions” is recited on line 1 of claim 21 as originally filed, but line 2 of the Amendment filed May 23, 2006. Hence, entry of this Amendment is respectfully requested to avoid any ambiguity as to the amendment of claim 21.

Also attached are formal drawings.

Also attached is a Supplemental Declaration signed by the inventors.

Prompt and favorable consideration of the foregoing are respectfully requested.

Respectfully submitted,
